

If passed by voters on May 15, 2018 the proposed \$619.7 million bond would increase the current property tax levy rate by an estimated \$1.24 per \$1,000 of assessed property value. If the bond does not pass, the additional tax would not be levied and the listed projects would not be completed. The Community Facilities Task Force reviewed all funding methods available to the district and recommended the School Board place a general obligation bond on the ballot for voters to consider. The district would receive an \$8,000,000 grant from the state if bonds are passed.

Crossler Middle School

Crossler Middle School is a two-story facility constructed in 1995. The school is within-capacity with fluctuating enrollment projected through 2025. Bond projects would include exterior seal, replacement of exterior wall cladding, plumbing improvements and HVAC upgrades. Technology and communications improvements would expand wireless capacity and provide intercom system upgrades. Two (2) additional science labs would be provided by repurposing select existing general classrooms. Bond funds would also be used to provide updated electronic badge access to exterior doors.

If the bond passes:

Improvements

- Repurpose select existing general classrooms into two additional (2) science labs
- Exterior seal
- Replacement of EIFS cladding on exterior walls
- Plumbing
- HVAC
- Intercom system upgrades
- Expanded wireless capacity
- Card access system upgrades
