

If passed by voters on May 15, 2018 the proposed \$619.7 million bond would increase the current property tax levy rate by an estimated \$1.24 per \$1,000 of assessed property value. If the bond does not pass, the additional tax would not be levied and the listed projects would not be completed. The Community Facilities Task Force reviewed all funding methods available to the district and recommended the School Board place a general obligation bond on the ballot for voters to consider. The district would receive an \$8,000,000 grant from the state if bonds are passed.

## Leslie Middle School

Leslie Middle School is a two-story facility constructed in 1997. The school is within capacity with fluctuating enrollment projected through 2025. The identified building improvement projects would include technology and communications upgrades, such as expanded wireless capacity and intercom system upgrades. Bond funds would also be used to provide updated electronic badge access and improved supervision of the main entry. Select existing classrooms would be retrofit into two (2) science labs. Additional projects would include kitchen upgrades, library improvements, music room improvements, exterior seal, roofing replacement, and site work.

If the bond passes:

### Improvements

- Intercom system upgrades
- Exterior seal
- Music room improvements
- Site improvements
- Roofing replacement
- Kitchen improvements
- Library improvements
- Repurpose select existing classrooms into two (2) additional science labs
- Expanded wireless capacity
- Card access system upgrades
- Increase visibility of main entry from office
